SUMMARY

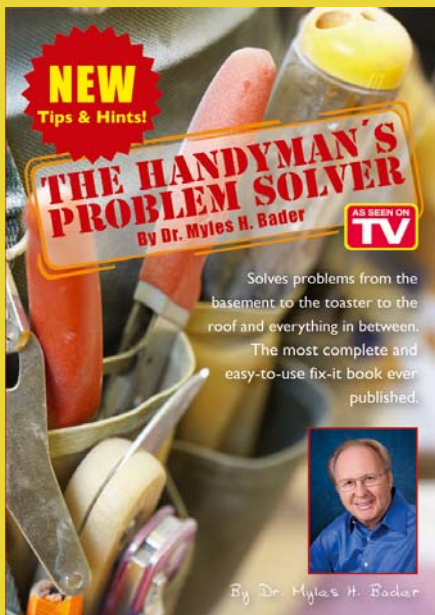

Solves problems from the basement to the toaster to the roof and everything in between. The most complete and easy-to-use fix-it book ever published!

Grandpa and grandma knew the ways to repair almost everything. Many times the repairs were done with know-how that has been lost throughout the years. After ten years of research and countless interviews, this book will be the new bible for do-it-yourselfers.

It is a must for every handyman or handywoman that enjoys the satisfaction of taking care of minor problems around the house easily and efficiently. It is the first do-it-yourself book that covers little known secrets from the roof to the basement floor.

If you have a problem, this book will have the easy solution using normal, everyday products and items that can be obtained throughout the home. It covers everything from small appliances, major appliances, furnaces and flooring to basement leaks, furniture repairs and even the roof.

The *Handyman's Problem Solver* contains large type making it easy to read and it is written in a way that any homeowner can understand, even if he or she has never done a repair. It will turn anyone into a handyman or handywoman!

MEDIA QUESTIONS

The following are a few of the 5,000 solutions to home problems and questions that can be used on the air:

1. Why a clean dryer lint filter is not really clean even though you remove the lint and can still start a fire or cost extra dollars in electricity and gas?
2. How to find a stud using a compass?
3. How to stop your hot water heater from ever rusting out?
4. How to remove superglue from your hands easily?
5. How to stop blinds from ever getting dusty?
6. How to stop hitting your fingers when nailing in small nails and brads?
7. How to stop a metal hammer from damaging wood-work?
8. How to keep sandpaper lasting longer?
9. How to repair a small hole in a white wall?
10. How to keep paint from running down the can when painting?
11. How to remove oil-based paints without paint thinner or mineral spirits?
12. How to sharpen the blades of a garbage disposal?
13. If you need a ruler in a hurry, try using a one dollar bill that is exactly 6 inches long.
14. How can I clean my toilets with leftover cola?
